Careers in Linguistics and Technology:
A Guided Conversation with SFSU Linguistics Alumni who Work in Tech

LCA Alumni Week 2023

Location: Burk Hall 28
Date: Thursday, April 20, 2023
Time: 2pm-3:15pm

Many are surprised to learn that linguistics, a humanistic discipline, undergirds the core of cutting-edge technology including human-computer interaction, machine translation, user design, and artificial intelligence. Join the SFSU Linguistics Program in an exploration of how the Linguistics major, minor, and certificate in Computational Linguistics can prepare you for employment in a variety of technology sectors. In this guided conversation, you'll hear from SFSU graduates about how they've achieved fulfilling careers in tech through their study of language, linguistics, and computation.
